Pocket Arcade Story DX as their new spiritual child has just been released recently. It certainly has recognizable qualities that her brothers also own. But on the contrary, the content is new and allows players to feel interesting in the history of the game and the novelty that is told. Pocket Arcade returns better than ever before In fact, this is an arcade simulation game about the life of a video game studio. and effortlessly. The content of this game was released as a bonus, but now all are free. First, the player will be provided with a small room, which will be the main basis to create all the value that he owns in this game. To facilitate understanding, this is a room that players will create in the video game arcade business. The usual products of the game will be placed in this room, and many players will visit and create money. All these payments are collected in your budget. When you have a certain amount of income, aim for better cabinets, providing products that match the player's taste, and they will use more money in your playroom. The layout of these cabinets also shows some of your aesthetic and design levels. Players need to think about all the techniques that make the best out of the room you have and earn as much money as possible. In addition to creating money, you are also allowed to participate in fighting games. Here the player will meet others in front of the 2v2 battle according to the rules of the arcade game. Of course, the winner will receive some consideration and the downturns of rival stores. Your game room will be bigger and bigger on the market. There is also the same house that your ratings have been significantly increased. Of course, all these indicators are for money-making purposes only. This is probably one of the funniest simulation games you will be taking part in. Few products can bring such an experience. MOD Information 1. Full version unlocked 2.
